3. In this list hit on "images".

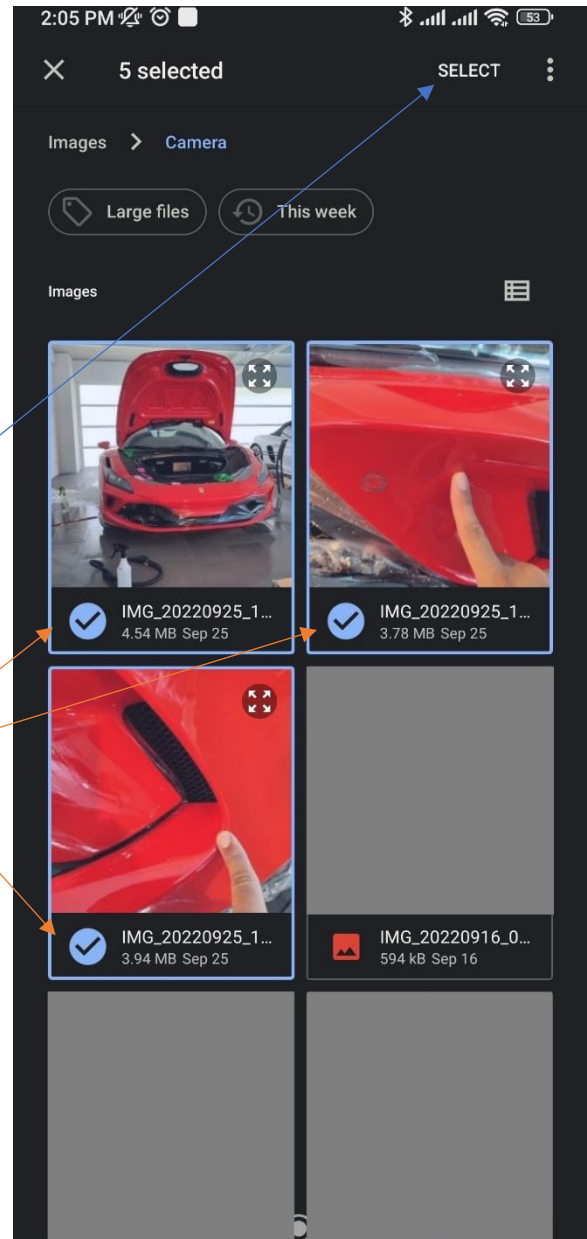

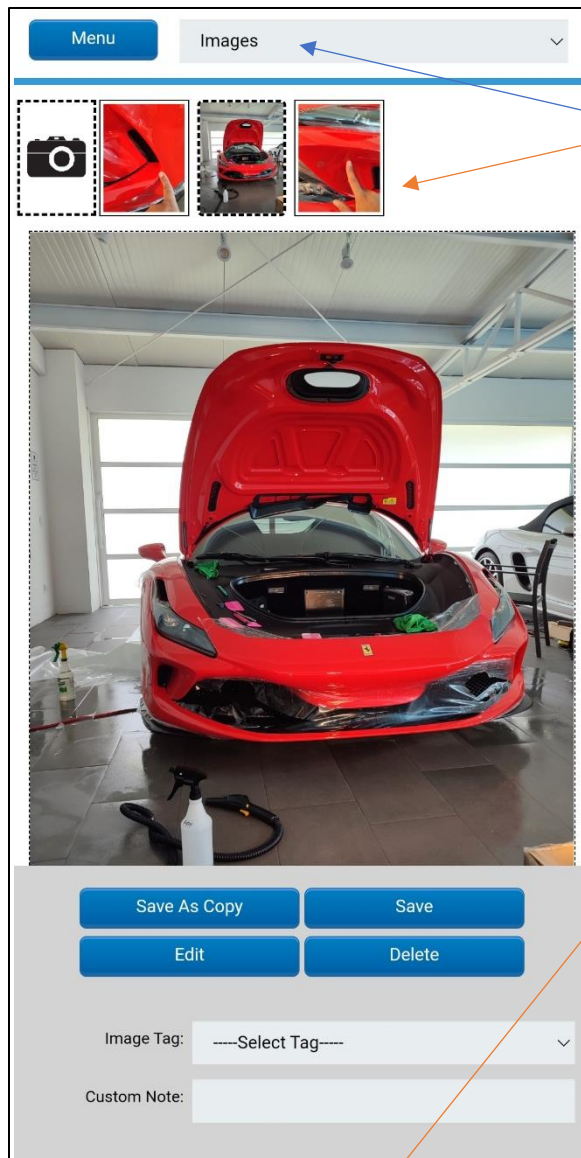

4. That will open the Images page, to add images hit the camera icon

5. Here hit on "Files".

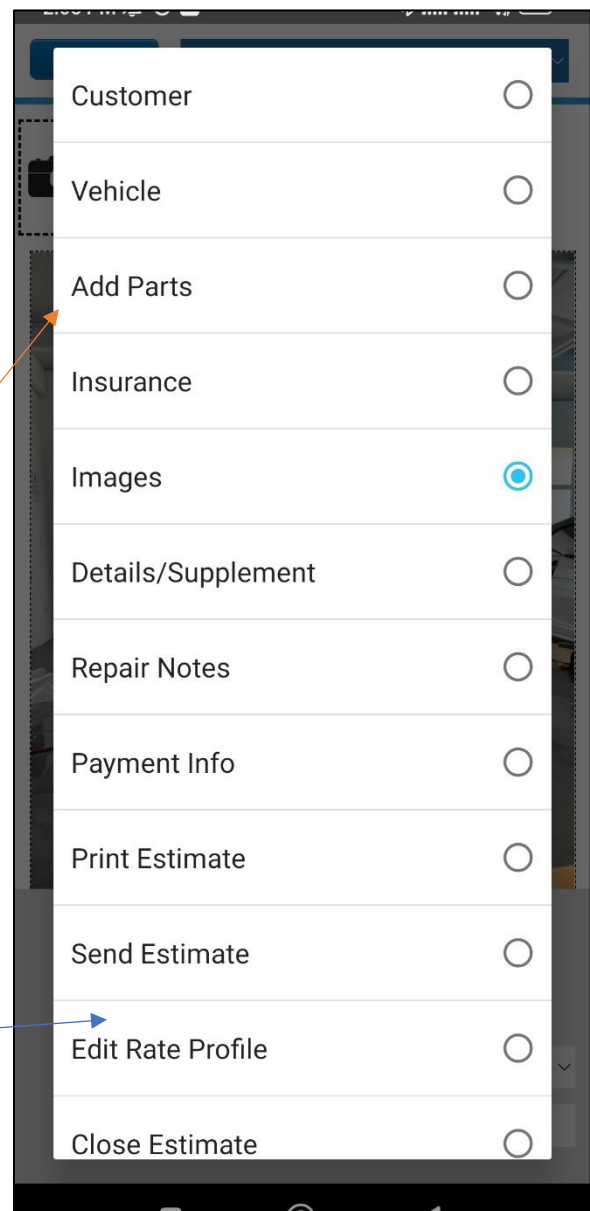

6. Select the pictures you would like to upload, then click "Select"

7. After the pictures have been uploaded, they will display next to the camera icon, they will be automatically saved. Once you finish uploading your pictures, click on "images"

8. It will open the same list as before, you can go to "Add Parts" to finish writing your estimate, or to "Send Estimate" if everything is done and ready to send. Images will be automatically added to your final estimate.
