

## Preset Charges

**Profile Name: Default**

The final section of Rate Profiles deals with “**Preset Charges**”. Adding a preset charge from this page creates an entry in a dropdown box near the top of the manual parts entry page. Some common uses for preset charges would be hazardous materials disposal, mask car for paint, setup for frame pull, and tint base/clear. Fields on this page are optional and depend upon the operation specified for the preset item being created. Before manually entering your own, **scroll to the bottom of this page** you can edit any of our suggested Preset charges to fit the price you would like to charge your customer.

	Line #	Status	Group	Op	Operation Description	Part Name	Part #	Part Price
Edit		(0)	null	Other	Other Hazardous Waste Remove			3.00
Edit		(0)	null	Other	Other Detail/Clean Vehicle			25.00
Edit		(0)	null	Other	Other Flex Additive			15.00

To manually enter your own Preset Charges fill in the fields
