

## HOW TO UPLOAD PICTURES TO YOUR ESTIMATE IN YOUR IPHONE:

1. First open the estimate by hitting the number

2. Then hit on "Customer" this will open a drop-down list

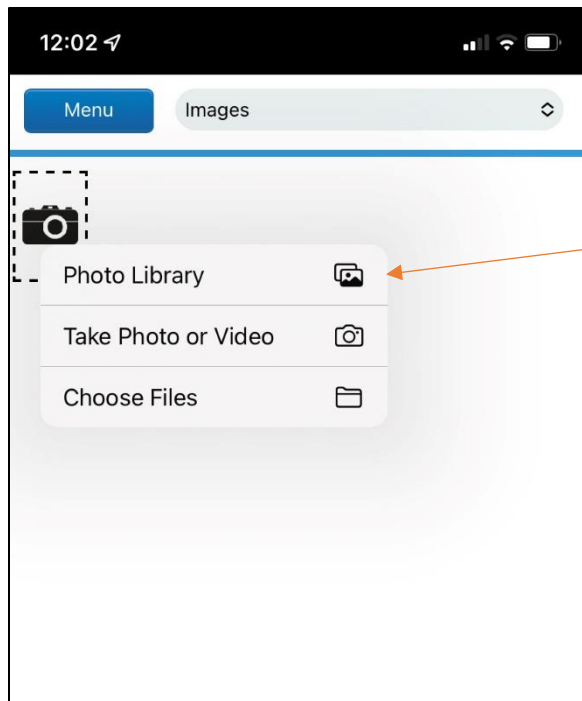

3. In this list hit on “images”.

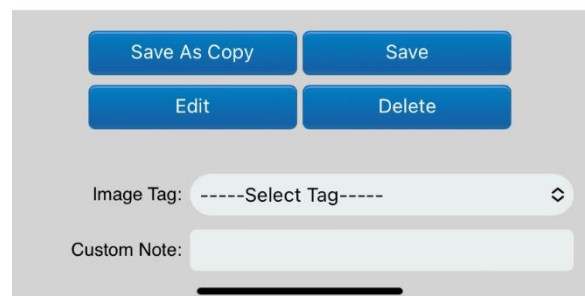

4. That will open the Images page, to add images hit the camera icon

5. Here hit on "Photo Library" and select the picture you would like to upload.

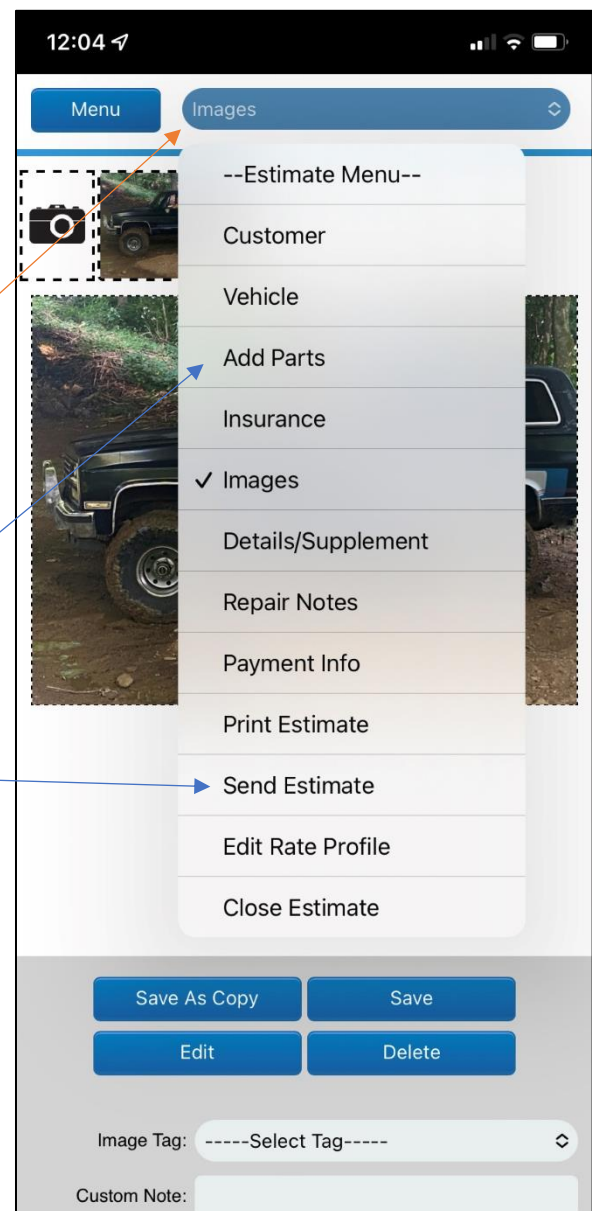

6. after the picture has been uploaded it will show next to the camera icon, it will get saved automatically.

7. You can add multiple pictures at a time.

8. once you have uploaded all your pictures you can hit "Images" and go to "Add Parts" to finish writing your estimate, or to "Send Estimate" if everything is done and ready to send. Images will be automatically added to your final estimate.
